Faster Decisions. More Business.

EMAGIA™

Dear Business Credit Managers,

The future of business credit operations is digital.
Are you ready to lead your business in the digital age?

Take your first step now to transform.
Get rid of your business credit application PDF today.
Here is how.....

Set up your business digital credit applications in minutes.

- Set up your free online account at www.thecreditapplication.com.
- No need to take lengthy cycles from your IT department to create online forms
- Use our click-n-create form builder to build your company branded credit applications.

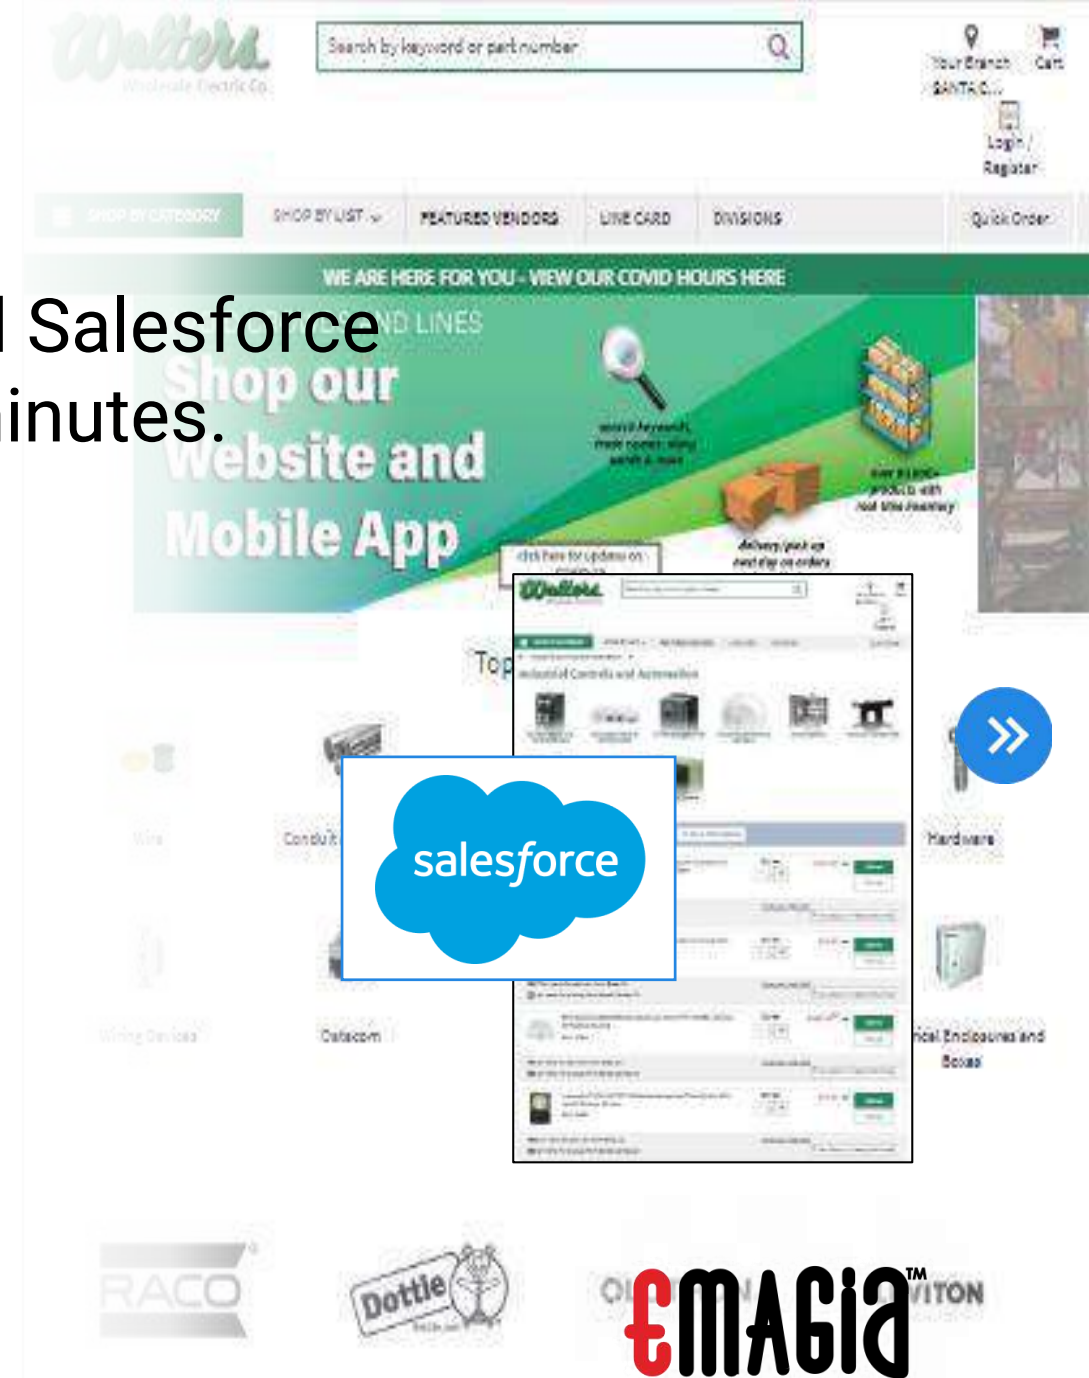

Empower your credit team with mobile-friendly credit applications for your B2B customers.

- Your customers can be invited to fill online your credit application form
- Self-service forms help them to complete the form and submit with proper documentation
- Every credit application takes a digital signature and is given a credit case number for future reference

Link easily to your e-Commerce site and Salesforce Take your credit department online in minutes.

- Place your new digital credit application weblink in your salesforce in minutes
- Put your new credit application weblink on your company website in minutes
- Add your new credit application weblink to your e-commerce site in minutes

Receive digital credit applications in your online inbox. Anytime, anywhere, on any device.

- Start receiving all credit applications in your email and in your online inbox
- Keep track of your credit applications easily in the cloud
- Export into excel or directly into your financial systems
